My dear Sir

Our annual meeting in January next is the semi-centennial of the Society and it has been suggested in several quarters that we ought to get up a medal which will commemorate that fact and at the same time the completion of the new building, and though the exertions and generosity of Mr. Huntington made the building possible, the medal should bear his portrait on one side, the building on the other and a suitable inscription and one gold medal should be struck and presented to him at the annual meeting.

Of course there could not be a general subscription during the month or until after the presentation of the medal to Mr. Huntington as it would not be easy to send out circulars without the matter coming to his ears in some way and it ought to be a complete surprise to him.

I would be very glad to get your views on the subject. If you think well of it, I could call at your office and talk it over any day next week, except Monday and Wednesday, any time between twelve and three o'clock.

I have a very good profile portrait

Very truly yours

Dear Mr. Adams:

Mr. Dattus and I saw Branner yesterday. He informed us that the cost of the die would be \$100. and the gold medal about two inches in diameter would be in the neighborhood of \$100. — say \$200. in all.

He says his regular price for a medal is \$150.

Mr. Dattus will subscribe \$100.

Do you think this price is sufficiently reasonable?

Sincerely yours

Dear Mr. Belden:-

Replying to your letter of the 11th instant: It seems to me that Mr. Brenner might be disposed to accept \$500.- for his design, the preparation of the dies and the supervision of the striking of the medals. Unless you can procure subscriptions to the amount of the \$700.- required, it would be desirable in any event to have an understanding with Mr. Brenner regarding the striking of the bronze medals to be offered for subscription by the members of the Society. Whatever sum is paid him should include the supervision on behalf of the Society of the bronze medal issue.

I will be pleased to subscribe to one of the bronze medals and to guaranty that the total subscription will cover the total expenses to the extent of a liability to pay \$50.- as my share or any deficiency in such subscriptions.

Sincerely yours,

Edward Adams

My dear Mr. Belden

Your letter received, and I am sorry to say that it will be impossible for me to attend to the medal for Mr. Huntington, there are many men in the Society who would be glad to do, and would do it much better than I. I will make it a point to attend the Council meeting on Saturday Oct. 26th.

When we were in Mr. Brenner's studio the other day I said I would give one hundred dollars for the medal, but on thinking the matter over I think I will give one hundred and seventy five dollars, and I enclose check for same. How really very sorry you cannot give the time to me about getting up the medal, but I suppose you know best and are aware how much you can do in the matter.

Now I am going to be perfectly frank with you, though I assure my devotion is for the medal for Mr. Huntington at any time it may be given! I have felt, as at that point, for sometimes that thing at our Society, in several little ways were not going quite as smooth as could be wished, and I firmly believe that if we do not make a special vote of the meeting in January, and present the medal to Mr. Huntington at that time, great harm will be done to the Society, and just at a time when it needs all the helping along it can get. As you know I have no private interest in the matter, all I want to do, is to do what is best for the Society, and I know you will excuse me for writing rather strongly on the subject. I don't often do so, but now it strikes me it is the only way. For I hope

that if we put off till April, what we had planned to do in January it will
be a blow to the Society, and a bad start in our new house.

With kind regards to Mrs. Belcher, yourself and family, I am,

Yours most truly

J. Sanford Dallas

P.S. I especially do not wish to be understood as differing with anything Mr. Huntington
has suggested about not making the January meeting a "special" one, if April is thought
to be the better time. I only speak regarding the medal to be presented to him, and that
I think should be given to him in January, the New Year in our new building.

October 18 1907

My dear Mr. Sattus:

I enclose herewith a letter that I have received from Mr. Adams, which explains itself, also a copy of my reply. I am so busy at present that it will not be possible for me to undertake putting this medal through, of course. I am glad to help as much as I can and I will communicate with several members whom I think will subscribe, but the detail work connected with Brimmer &c. will take more time than I can possibly spare, as it is all my spare time is devoted to Society work and I can hardly keep it up.

How can you not put this through? I am sure Mr. Adams will help you as much as he can. I would certainly consult him regarding the design, I think if the design is approved by you and Mr. Adams we will be sure to have something good.

Mr. Adams thinks Mr. Huntington should be requested to sit for a portrait. I spoke to Mr. Willhouse about it and he is of the same opinion.

We will have a Council meeting on Saturday Oct 26th and, if you decide to speak to Mr. Huntington, that might be a good time, we can all add our persuasions.

Mr. Huntington has suggested that we do not make any special fuss at the Annual meeting in January, but wait until April 8th the actual 50th Anniversary of the first meeting of the Society. Should this be done would it not be well to present the medal then? I will give us three months more time.

Mr. Lawrence will be a subscriber. I do not know for how much.

Very sincerely, Raymond L. Didden

My dear Mr. Belden,

The mail is about to close so I have only time to write you a few lines. I was very sorry not to find you at the society room this afternoon. Only Mr. Pollan and I were there, and I left early so as to go and see the parade. I would like very much to see you before the meeting next Saturday. Could you not send me a note letting me know when you would call here, on any day except Friday.

to hand. Sorry I could
not be present at
the meeting.

The photographs of
Mr. Huntington evidently
are insufficient,
and what is more,
I do not know who
is getting it up and
who is ~~the~~ an respon-
sible for its outcome.

If it is to be done,
the sooner I can get
the necessary docu-
ments the better.

My dear Mr. Brewster:

Yours of 30th inst. at hand, I will see that
can be done about a photograph.

It will be time enough to consider who is impossible
for the outlay when the order is go ahead with the
work is going. You can rest assured that that part
of it will be in proper shape when we are ready
to start the work.

The question now in hand is to secure a photograph
that you can use and that will have to be settled
before any thing can be done.

I understand the importance of time and will hurry
things as much as possible.

Sincerely yours

William Brewster

My dear Mr. Belden

Your letter just received.

Franker is worried because he can't tell what is
to be done about the medal. I think that is all
is you say it is a great pity that someone don't
take hold of the matter. I wish I knew someone
who could, but I don't. Don't you think you could
see Franker before long, and perhaps you could
do more than it looks as if you could at present,
for I don't think there is really so much to do
when the thing is once started.

Think the matter over before you pass it in other
hands. There is another thing. Franker I know has
some important work to do during the next three
months and the longer he knows what to do the
better. I'm feeling better, but I'm pretty much in a
fuddle.

and is not to be used. I have I think no other
left me. I have dinner at the Selwyns but
not Sunday and there was to have been one, but
it has been given up for a time at least.
Please give my regards to all your family.

My dear Mr. Adams -

Enclosed is a medal from the American Numismatic Society, which I have been thinking of sending you. You might if you will send it to Mr. Adams with your letter and ask him to send it back to me as Mr. J. T. Smith, Jr. -

What do you think should be the inscription on the reverse? I think what Brimmer has put on the obverse is all right but I do not altogether like his reverse inscription. I thought of something like this -

The American Numismatic
Society.

First Regular Meeting
April 6, 1888

New Building opened
April 6, 1888

This could probably be improved upon and I wish both you and Mr. Adams would consider it.

Mr. Brimmer and I both thought it would be well to have the gold medal presented to Mr. H. by some one on the edge to the effect that it is presented to him by members of the Society.

Please start this along to Mr. Adams as soon as possible and ask him to send it to me as soon as

He can at the time in my check on 2 Brounec will
have to hustle to get this ready by April 1st

The dem cost \$500 and so have \$200 as far
submitted, or if you can get any one else to come
in please do so.

The gold medal will cost from \$60 to \$100. This should
be paid for by a number of small subscriptions - say
\$100 each - and be entirely distinct from the look of
the old bronze medals will cost us about \$100
each and by selling them to members after the
presentation, at \$3.00 or \$5.00 each we can get back a
part - if not all - of the cost of the coin.

Dear Mr. Belden,

First, in reply to your letter just received, I would say that I have not heard from any of the new members elected lately. Now for the Huntington Medal as I have long been a friend of our president I think you might have spoken to me upon the subject some time ago, especially as you knew I would approve of anything you could do for him in that line. I was not aware that anything of the kind was on foot. However I enclose my check for \$25.00, twenty for the die and five for the medal. I also enclose several communications recently received which speak for themselves. I hope you received the list of delinquents sent you a few days ago, you made no mention of it.

My Dear Mr. Belden,

Your note regarding the
"Huntington Medal" just received, and contents
considered, I think with you that a committee
should be formed immediately, in fact I should
have been spoken of and arranged some time
ago. Now I do not agree with in thinking
Mr. Adams should be chairman of this Com.
(not that I have any objections to Mr. Adams) but
because Dr. Keany was the first to suggest the
matter in question and therefore is entitled
to the first place on the working list and, ~~then~~
in my opinion, has just as much experience
in the medallic art, as any man in the Soc.
Mr. Adams not excepted. Whether the Doctor should
take the position or not at this late date I
of course do not know, but he should have
the opportunity to do so. Now if you want
Mr. Adams you can leave me off entirely,
but do not offend Dr. Keany. In love

think the Doctor should be requested to appoint
his own committee. How to change the subject,
I would like to have you lunch with me
some day in the near future so that we can
go over the list of members and the address
book together and also fix up the report
for publication. I have had no more contributions
to the Building Fund but enclose a note recently
received on that subject.

American Insignia, comprising, first, decorations conferred by the United States Government; and by the different states and cities, for military service; second, the insignia—or badges of members and officers—of the various Military and Hereditary Societies, form a branch of American Numismatics which has not in the past received the attention it deserves.

A collection of such Insignia should be placed where it would be permanent and accessible to students of Numismatics and of American History.

Many of the societies which should be represented in such a collection have gone out of existence, and their insignia are now most difficult to obtain; others have adopted new designs, and the same difficulty confronts any effort to procure those that have been abandoned. In the future this difficulty will increase; other societies which are now active will die out, and as time goes on a collection of this kind will become of greater value and interest, and will be the means of preserving much numismatic history that might otherwise be lost.

In the Spring of 1900 this Society undertook the formation of a collection of this kind, as distinct from its collections of other American medals, and it now has, in addition to the principal Government decorations, the insignia of a majority of the more important and many of the smaller active societies, also of a number of societies which have ceased to exist. Within the narrow limits to which it is confined, this collection, probably, has no equal.

Being an incorporated body and the most important numismatic society in America, its collections are permanent; they will soon be displayed in its own fireproof building; it is, therefore, in a position to guarantee that any insignia that it may receive will not at any time go out of its possession and get into the hands of private parties. A large proportion of the insignia of military and hereditary societies in this collection were obtained direct from the respective societies, and it is hoped that societies, not now represented in the collection, which restrict the issue of their insignia to members only, will, in view of the facts stated above, waive that rule in favor of this Society.

This Committee was appointed for the purpose of carrying on this work in a thorough and systematic manner. Its success, has, so far, been most satisfactory, but there is still much to be accomplished, and it would earnestly request the co-operation of the members of the Society and of all others who are in sympathy with its efforts to preserve numismatic and historical records.

Dear Sir:-

In view of the fact, that the efforts the President of The American Humane Society, Mr. Archib. H. Huntington, together with the gift of the land on which it stands, have made possible the erection of the Society's new building, it has occurred to a number of the members that it would be a fitting acknowledgment to strike and present to Mr. Huntington a gold medal bearing his portrait and a view of the building.

~~This medal is now under way~~

The dies for this medal are now being prepared by Mr. Victor D. Brown; the total cost will be about six hundred dollars of which half has already been subscribed,

It is planned to present the medal at the fiftieth anniversary of the first meeting of the Society, on April 6th 1908.

Should you care to join with us in the presentation of this medal, kindly send the amount ~~you~~ of your subscription to Mr.

It was then agreed, by Mr. George F. Hunt, and seconded, that, on this, the 50th anniversary of the founding of the American Nautical Society. This Society should award a medal that shall be known as "The Archer M. Huntington Medal". The obverse is to appear the portrait of our President; on the reverse a picture of the building that now bears the name of the Society. The first medal is to be of gold, and to be presented to our President to commemorate this evening, and also for his service to navigation in general; that medals in bronze shall be struck for members; and from then to time silver medals are to be struck and given to a worker in navigation either for literary contributions; special gifts, or for other services in the science of navigation. The details is to be referred to the Executive Committee.

New York, March 3rd, 1909.

Mr. Archer M. Huntington,
Hispanic Society Bldg.,
156th St. West of Broadway,
New York City.

Dear Mr. Huntington:

Permit me to thus present to you,
on behalf of your friends and members of the American
Numismatic Society, as per list hereto attached, the
accompanying gold medal as an expression of our sincere
appreciation of your generous support of the interests
of our Society, that has now, through your influence,
been firmly established in a beautiful home with in-
creasing collections and membership.

Faithfully yours,

EDWARD D. ADAMS

10 March 1909

My dear Mr. Adams:

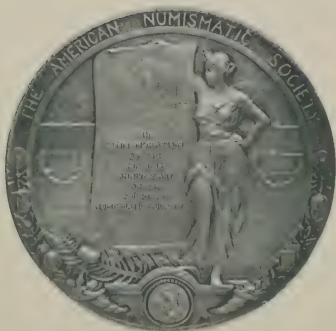

It gives me great pleasure to acknowledge your letter of March third, in which you present to me, on behalf of friends and members of the American Numismatic Society, the beautiful gold medal which they have had made. You already know something of the sense of appreciation and gratitude which I feel in regard to this expression on the part of my friends, an expression which seems to me out of all proportion to the services which I have been able to render.

I beg that you will express for me my profound appreciation and thanks.

Very sincerely yours

Archer M. Huntington

THE ARCHER M. HUNTINGTON MEDAL.

Medal Committee-
American Numismatic Society.
71 BROADWAY,
NEW YORK.

January 17th 1910.

Mr. Bauman L. Belden, Director.
American Numismatic Society,
156th Street, west of Broadway,
New York City.

Dear Mr. Belden;

HUNTINGTON MEDAL

Herewith I enclose the original letter from Arthur M. Huntington, dated March 10th 1909, addressed to me, acknowledging the receipt of the gold medal, which was presented to him in behalf of his friends and members of the American Numismatic Society, who subscribed the funds for the design and execution of this medal, as a testimonial of their appreciation of his services to our Society. I think this letter should be preserved in our files, and I hope a copy of the same, either separately or as a part of the report of the medal committee that quotes this letter, be sent without fail to every subscriber, a list of whom I sent you in my letter of March 3rd 1909.

The subscriptions for this medal amounted to \$1149.73, the total expenses for the striking of the gold medal of presentation, and the 11 silver and 25 bronze medals, as a reserve for the purposes of the Society, amounted to - 602.87 leaving a balance that was accepted by the artist in full 546.86 payment for his services which were rendered most generously because of his high appreciation of Mr. Huntington, and his hearty sympathy with the purposes of our Society.

Sincerely yours,

Chairman.

March 31st, 1909.

Mr. Bauman L. Belden, Recording Sec'y,
The American Numismatic Society,
156th Street West of Broadway,
New York City.

Dear Mr. Belden:

HUNTINGTON MEDAL.

I have delivered the gold medal to Mr. Huntington, on behalf of the subscribers, accompanied by a letter of which I enclose a copy herewith for your files. I send you herewith all the dies and hubs that were made and used in this connection.

There have been struck from these dies only

Eleven silver medals of which one is intended for the collection of the Society and the remaining ten are to be held subject to the terms upon which this medal was created by the resolution of the Society—that is to say, to be retained by the Society for the purpose of awarding the same from time to time, as the Society or the Council may direct, for literary or other services to the science of numismatics.

Twenty-five bronze medals of which two have been presented to the artist, Mr. Emil Fuchs, and the balance are for sale, as stated in the last Annual Report of the Committee on the Publication of Medals, at the price of \$3 for those who have subscribed to the gold medal and of \$8 for those who have not yet made such a contribution.

I enclose herewith my cheque in your favor for \$3 and have retained one of the bronze medals for my own account.

I also send you the original bronze castings from which the dies were cut.

Whatever sums may be realized from the sale of these

bronze medals I recommend should be credited to a special fund to be called "The Publication Fund" to which should be charged the expense of striking any additional copies of this medal as the same may be required from time to time to meet the demand therefor.

Very truly yours,

REPORT OF THE COMMITTEE ON THE AWARD OF THE
HUNTINGTON MEDAL

0 0 0 0 0 0 0 0 0 0 0 0 0 0 0 0 0 0 0 0

In making the second award of the Huntington Medal in recognition of literary or other services to the science of numismatics, the Committee thinks it most fitting that the bestowal of this medal be made not only for continued past literary efforts which have been temporarily interrupted by war work, but also as an incentive to continue as soon as possible the work so well carried on for the past few years.

In behalf of The American Numismatic Society we take great pleasure in presenting the Huntington Medal to Mrs. Agnes Baldwin Brett for her work in classifying and bringing together in concrete form certain of the earlier series of the coins of Ancient Greece.

Numismatics in general and numismatists in particular owe Mrs. Brett a great debt for her many published monographs. To mention but two, The Electrum Coinage of Lampsakos and the Electrum and Silver Coins of Chios would alone place us greatly in her debt.

May this token of our appreciation inspire long continued activity in your chosen field.
